

The National Monuments Authority

Cordially invite you for the 4th

“Aatal Bihari Vajpayee Memorial Lecture”

By

Smt Saroj Bala, IRS, former Member CBDT

On

“Dating of Ramayana and Mahabharata through Archaeological,
Astronomical and other Scientific Evidence”.

at 4.00 P.M.

On Thursday, the 19th December 2019

at

Dharohar Bhawan

ASI Auditorium, 3rd floor

24, Tilak Marg, New Delhi-110001

RSVP:

National Monuments Authority

Phone: 011-23380540, 23073837

(Short profile of Smt. Saroj Bala is attached)

Saroj Bala – Short profile

Saroj Bala had distinguished herself as an officer of the Indian Revenue Service. She holds degrees in Law and Political Science. A series of inexplicable events in the beginning of 21st century changed the course of her life. She plunged herself whole-heartedly into multi-disciplinary scientific research to ascertain about the historicity and antiquity of Vedas and Epics. She remained the Director of the Institute of Scientific Research on Vedas during 2009 to 2017.

Saroj Bala adopted the methodology of verifying the dates and authenticity of various events narrated in Vedas and Epics by adopting multi-disciplinary scientific approach. Her first book entitled “Historicity of Vedic and Ramayan Eras: Scientific Evidences from the Depths of Oceans to the Heights of Skies” was published in 2012. She is widely accepted as a genuine scientific researcher on the subject. G.J. University of Science & Technology, Hisar conferred the degree of Doctor of Science on her for this kind of research. She has made presentations on the subject in several universities. Most of the TV channels have been telecasting her comments as an Expert on this subject.

Her next book under the title “Ramayan ki Kahani, Vigyan ki Jubani’ was released in October 2018. Thereafter, her latest book ‘Ramayan Retold with Scientific Evidences’ was released on 5th February 2019. The research methodology adopted by her for writing these two books is extremely innovative, credible and scientific. She extracted all astronomical references sequentially from Ramayan and then generated the corresponding skyviews using Planetarium and Stellarium softwares. Supporting evidences from archaeology and palaeobotany, geology and geography, ecology and oceanography, remote sensing and genetic studies etc. have been correlated with astronomically determined dates and these have been beautifully woven into the life story of Shri Ram narrated by Maharshi Valmiki.

Her book ‘Ramayan ki kahani, Vigyan ki Jubani’ was presented by Yogi Ji to Modi Ji on 30th November 2019. Currently she is working on “Mahabharat Retold with Scientific Evidences”. She feels extremely satisfied that after having two unsuccessful attempts at astronomical dating of Mahabharat, she has now succeeded in arriving at a near perfect date sequence, which has been endorsed by most of the scientists and scholars.
